Settings Full Screen

The video player interface is semi-transparent and features a red progress bar. It includes standard video controls: play/pause, next, volume, and a progress indicator. Below the progress bar are three interactive buttons: 'Like' with a heart icon, 'Comment' with a speech bubble icon, and 'Share' with a share icon. On the right side of the player, there are icons for 'Settings' (a gear) and 'Full Screen' (two squares), with a small 'HD' label above the settings icon.
